

WordPress Plugin Installation

Before you connect Newsguru to WordPress, set up your campaigns in Newsguru. The plugin will automatically load your Newsguru stories to WordPress. This is a step by step guide to setting up a connection between Newsguru and your website.

LOG INTO APP.NEWSGURU.AI

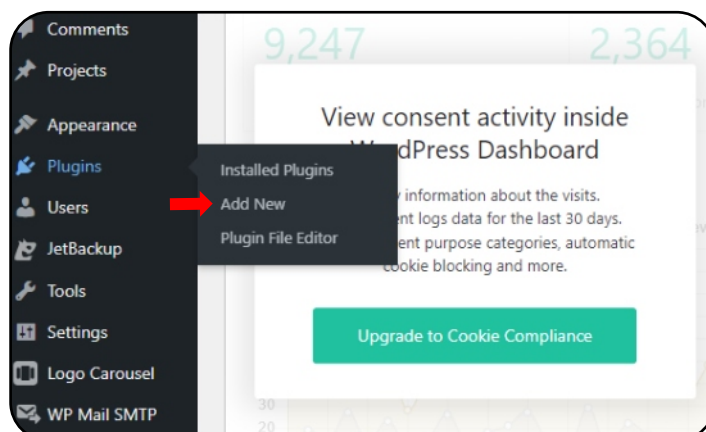

From the user dashboard select the campaign you want to connect to your website. From the CONNECT menu select 'Auto posting.'

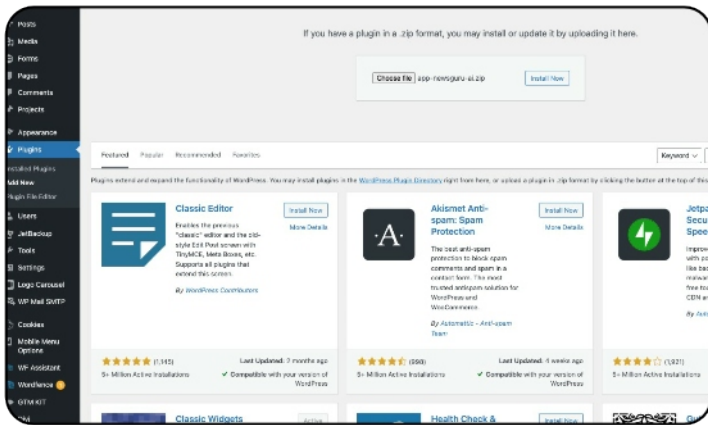

From the CONNECTION SETUP menu select WordPress plugin. Download the plugin or copy the link to the cloud location of the plugin and download it to your hard drive. Make note of its location for transfer to your WordPress site.

LOG INTO WORDPRESS

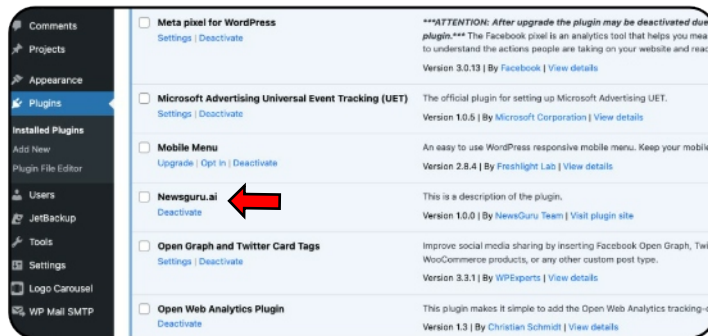

From the WordPress menu select Plugins/Add New

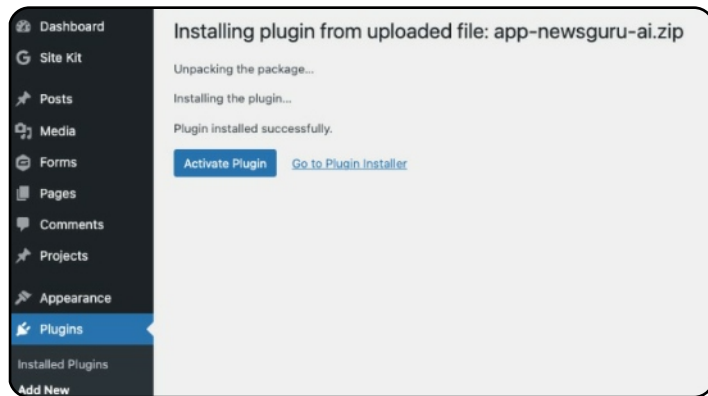

WordPress Plugin Installation

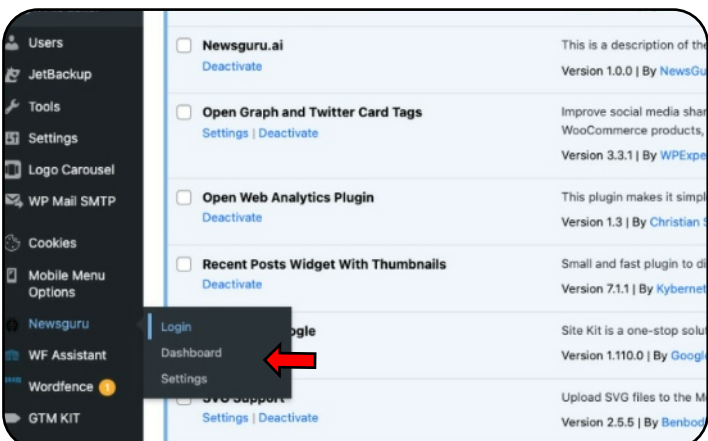

Click on 'Choose file and navigate to the location of the plugin on your hard drive.'

After the plugin has been uploaded to WordPress and installed, select the plugin from the plugin Library.

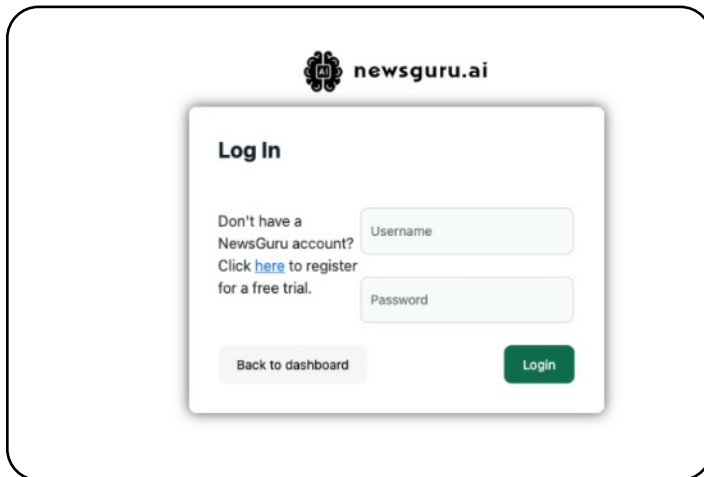

Click on the 'Activate Plugin' button.

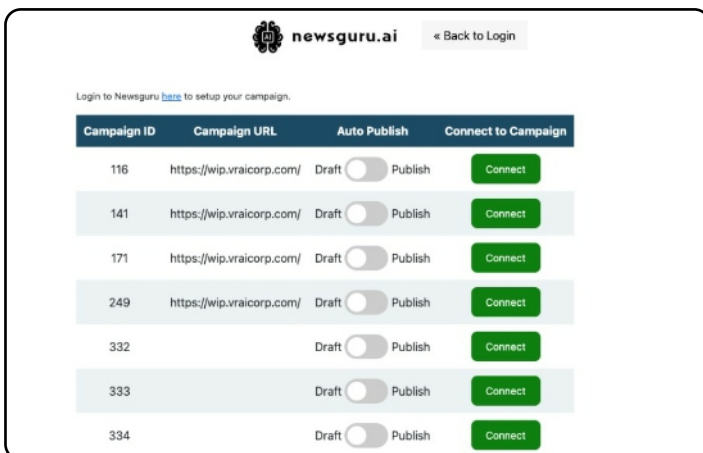

NewsGuru will now be available in the left hand menu. Select it and choose to Login.

WordPress Plugin Installation

The screenshot shows the Newsguru.ai login interface. At the top, there is the Newsguru.ai logo and the text "newsguru.ai". Below this is a "Log In" section. On the left, it says "Don't have a NewsGuru account? Click [here](#) to register for a free trial." To the right of this text are two input fields: "Username" and "Password". At the bottom left, there is a button labeled "Back to dashboard", and at the bottom right, there is a green button labeled "Login".

Now you will log into Newsguru directly from WordPress to select the campaigns you want to add to your WordPress site.

The screenshot shows the Newsguru.ai dashboard with a list of campaigns. At the top, there is the Newsguru.ai logo and a "Back to Login" link. Below the logo, there is a small instruction: "Login to Newsguru [here](#) to setup your campaign." The main content is a table with the following columns: "Campaign ID", "Campaign URL", "Auto Publish", and "Connect to Campaign".

Campaign ID	Campaign URL	Auto Publish	Connect to Campaign
116	https://wip.vraicorp.com/	Draft <input type="checkbox"/> Publish	Connect
141	https://wip.vraicorp.com/	Draft <input type="checkbox"/> Publish	Connect
171	https://wip.vraicorp.com/	Draft <input type="checkbox"/> Publish	Connect
249	https://wip.vraicorp.com/	Draft <input type="checkbox"/> Publish	Connect
332		Draft <input type="checkbox"/> Publish	Connect
333		Draft <input type="checkbox"/> Publish	Connect
334		Draft <input type="checkbox"/> Publish	Connect

The plugin will load all campaigns that are running in your account. Clicking connect will add the campaign to WordPress in either Draft form - if you want to review articles before publishing them or select Publish if you want articles to automatically appear on your website.

At present the article will not be assigned a category.
